CHECK OUT OUR NEW 2025 CATALOG AT WWW.BASSTOOL.COM

OPENING AN ACCOUNT: To open a new account, we require three trade references (preferably tool suppliers) and your bank.

For a credit application, call us or download from our website @ www.basstool.com. We also accept:

TERMS AND CONDITIONS ARE POSTED AT WWW.BASSTOOL.COM

FREE LOCAL DELIVERY: Local customers can benefit from our delivery service, up to two times daily.

Online Ordering at: www.basstool.com

BENEFITS

- Find the exact tool you need by utilizing a user friendly pictorial drilldown within each product group (as shown on the screen below.)
- The intelligent product search allows you to narrow down your search by selecting the products attributes (Dimensions, Materials, Brands, etc.)
- Stock checking
- Place orders online
- Review back orders
- Maintain sub-accounts to allow others in your company to use the system.
- See your own pricing
- View order status
- Review unpaid invoices

TO CREATE YOUR ONLINE ACCOUNT GO TO:
www.basstool.com
AND CLICK ON:

• **BEST SOFTWARE**

• **BEST CUSTOMER SUPPORT**

Transform your quality processes with Hexagon's metrology solutions — empowering precision, efficiency, and smarter decision-making for every stage of manufacturing.

 **HEXAGON CMM - COORDINATE MEASURING MACHINES**

Bridge CMMs

Extensive range of solutions in every industry where accuracy, repeatability and automated dimensional inspection is required

- **Sturdy mechanical design**
- **High-speed and safety**
- **Messaging lights**
- **Temperature compensation**
- **Real-time system monitoring**
- **Extended temperature operating range**

● **Bridge with triangular crossbeam**

Featuring an improved stiffness to-mass ratio relative to square or rectangular traverses, this design allows for the highest dynamics and high-speed measurements.

● **Future-ready concept**

The future-ready pre-cabling enables easy adaptation of the CMMs to future measurement tasks without costly downtime. A range of adaptability options can be flexibly selected during initial CMM configuration or set up later as upgrades.

Shop-floor CMMs

Compact, robust and ergonomic measurement designed to operate directly on the shop floor.

● **Preloaded air bearings on all axes**

Contactless, low-friction and low-wear axis motion ensures fast and repeatable positioning at all speeds and accelerations, resulting in low measuring uncertainties.

Portable measuring arms

Accurate measurement from the quality room to directly within the manufacturing environment.

ABSOLUTE ARM

- **High Accuracy Portable Measurement**
- **Super Flexible & User Friendly:**
Flexibility is at the core of the Absolute Arm product range. Flexibility in configuring the arm's wrist for the needs of the application and the comfort of the operator. Flexibility in swapping probes or scanners without having to stop work and calibrate. Flexibility in having measurement results displayed where they're needed. Flexibility in a product range of 36 different configurations across three types, seven sizes and three accuracy levels. Flexibility in finding the right solution for every measurement need.

Encoders

Patented **Absolute Encoders** within every articulated joint are exclusive to Hexagon and make the Absolute Arm the only portable measuring arm that has completely eliminated warm-up times and encoder referencing before use.

Movement

The unique **Zero-G Counter Balance** system and low-friction rotating grips reduce user fatigue and maximize accuracy by minimizing inertia.

Measurement

Multi-functional control buttons and a convenient **OLED wrist display** screen out measurement control directly in the user's hand, while a range of probes and 3D scanners deliver flexible measurement functionality.

Feedback

Easy user interaction in even the harshest industrial environments through **visual, acoustic and haptic** feedback functions, now augmented with Bluetooth technology.

INVENTORY IN STOCK

Smart inventory to cover all of your needs!

We have built an inventory based upon sales history, industry trends, and technological advancements. We stock what others consider "non-stock".

METROLOGY CENTER

For the most sophisticated quality control solutions

BANDSAW WELD CENTER

Ensures quick delivery on Weld-to-Length Bandsaw Blades

OFFICES

Our offices were designed with our employees' comfort in mind and include ergonomic furniture, spacious stations, user friendly computer systems and a top of the line phone system. All of these comforts make for a very pleasant and productive work experience.

TECHNOLOGY CENTER

For training customers and employees
