Valid until March 31, 2025

NTK Introduces the first ever three fluted cutters with ceramic negative inserts for as small as $\phi 0.625$ " cutters, **ideal for the aerospace industry.**

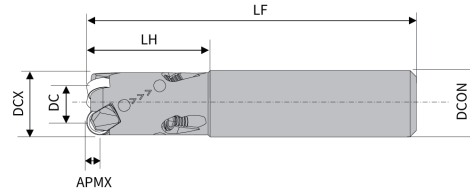

Watch our Video of the JRF Cutter:

By using double-sided, strong inserts and an efficient close pitched design, these cutters **improve** tooling costs and productivity. The unique wedge clamping **improves** insert clamping and machining rigidity.

Promo Code: JRF40
Valid until March 31st, 2025
