QuantuMike Micrometer 4X Faster Spindle Travel

- › Faster measurement with 2mm travel per revolution instead of the standard 0.5mm.
- › A patented ratchet thimble mechanism helps ensure repeatability.
- › Function-lock system prevents inadvertent setting changes.
- › Long battery life – 2.4 years under normal operation.
- › Certificate of inspection provided (not included with 2-3" model).

Speedy measurement

Faster measurement is achieved by using a coarser thread which feeds the spindle by 2mm per revolution of the thimble instead of the standard 0.5mm. This increase of spindle feed has been made possible thanks to new high precision thread-cutting and test techniques. Trials show that a reduction in positioning times of 60%* and measuring times of 35%* can be obtained, compared with a conventional micrometer.

* According to Mitutoyo's comparison test data for measuring time on typical workpieces.

Order No.	Description	List	Promo
293-180-30	QUANTUMIKE, 0-1" Range, IP65, .00005" Resolution, W/SPC Output	\$310.00	\$248.00
